Geographic Information, P'yŏnggangsin-ŏp, P'yŏnggang-gun, Kangwŏn-do

1. The present P'yŏnggang-ŏp, the county seat of P'yŏnggang-gun, is often referred to locally as Sin-ŏp (new town), in contrast to the former P'yŏnggang-ŏp, which is now commonly called Ku-ŏp (old town). Due to the bombings [redacted] during the Korean War, the county seat was moved to Tukpak-kol in Chungsan-ni. From here it moved to the former Pokkye-ri, which is the present county seat [redacted] following the Armistice. At the time of the reorganization of administrative district, P'yŏnggang-ŏp was established from the combination of Paegyong-ni, Hagamŏni, Sinhŏng and Kwajŏn, with Pokkye-ri as the center of the town. This area suffered rather heavy damages during the Korean War, but reconstruction work was begun with the move of the county seat to this site. [redacted] approximately 60 percent of the pre-war buildings had been restored. The Five (5)-Year Plan includes the construction of brick buildings to house such administrative units as the county people's committee, Consumers' Guild, Communications Department, and Labor Party Committee, which have all been maintained in temporary structures. When such construction is completed, the people's committee office will be a two (2)-story structure, and all other buildings will be one (1)-story. At present troops of an unidentified Chinese Communist units are stationed in P'yŏnggang-ŏp in temporarily erected barracks in the area of the railroad station and lines. The following is a legend to the attached sketch of P'yŏnggang-ŏp:

25X1

25X1

25X1

1) Automobile Repair Shop, Chinese Military:

25X1

2) Farm Equipment Rental Station Office: One (1)-story structure, of brick and tile, newly built [redacted] and 15 meters long, five (5) meters wide and four (4) meters high.3) Farm Equipment Rental Station Residences: Approximately 14 houses to accommodate employees of rental station, newly built [redacted] Two (2) units are ten (10) meters long, five (5) meters wide and five (5) meters high, of brick and tile construction, while the others, of the same dimensions, are of mud construction with grass roofs. All houses are one (1)-story. Each house accommodates two (2) families.

25X1

4) P'yŏnggang-gun People's Committee: Former transformer station during Occupation, now used as temporary office of committee while repairs are made on other office building. Structure is two (2)-story, with concrete walls and tile roof.

CONFIDENTIAL

-1-

CONFIDENTIAL

- 5) Railroad Bridge: Destroyed during war, but restored to former condition following Armistice, 100 meters long and single track.
- 6) P'yonggang Veterinary Hospital: Temporary building, newly built over ruins of former civilian house; one (1)-story, with mud walls and tile roof, ten (10) meters long, three (3) meters wide, and 2.5 meters high.
- 7) P'yonggang Market: An area approximately 100 meters square, handling all types of dry goods, vegetables, meat, domestic animals, marine products, clothing, and materials. Under the control of the P'yonggang-gun Production & Sales Cooperative Management Committee. There are no private shops in this market.
- 8) Private Chinese Drug Store and Hotel: Temporary structure, newly built over ruins of former civilian house after war; Curved-shaped one (1)-story structure, with mud walls and grass roof, 20 meters long, six (6) meters wide, and three (3) meters high. The signboard reads "KIM Song-ha Clinic" over the drug store and the sign over the hotel reads "Kaesong Hotel".
- 9) P'yonggang-gun People's Committee: Temporary building, newly built over ruins; One (1)-story structure with mud walls and grass roof, ten (10) meters long, five (5) meters wide, and 2.5 meters high. 25X1
- 10) P'yonggang-gun Internal Affairs Station: Built in One (1)-story brick structure with tile roof, 20 meters long, ten (10) meters wide, and four (4) meters high. 25X1
- 11) P'yonggang-gun Military Mobilization Department: Temporary quarters, newly built One (1)-story structure, with mud walls and grass roof, ten (10) meters long, five (5) meters wide, and 3.5 meters high. 25X1
- 12) P'yonggang-gun Labor Party Committee: Newly built One (1)-story structure with brick and lime-coated walls and tile roof, 20 meters long, ten (10) meters wide and four (4) meters high.
- 13) P'yonggang-gun Democratic Youth League Committee: Newly built One (1)-story structure with tile roof and lime-coated walls, seven (7) meters long, four (4) meters wide, and three (3) meters high. 25X1
- 14) P'yonggang-gun Barber Shop: Newly built One (1)-story structure, with grass roof and lime-coated walls, size unknown; Operated by P'yonggang-gun Consumers' Guild, and presently employing (10) barbers or more. 25X1
- 15) P'yonggang-gun Farmers' Bank: Temporary quarters, newly built One (1)-story structure with grass roof and mud walls, ten (10) meters long, seven (7) meters wide, and three (3) meters high.

CONFIDENTIAL

CONFIDENTIAL

- 16) P'yonggang-gun Library: Newly built after war; One (1)-story structure, with grass roof and mud walls, ten (10) meters long, five (5) meters wide, and 2.5 meters high. The Library contained books popular and foreign novels, science, and government for visitor's in the possession of a reader's ticket, obtainable upon application.
- 17) P'yonggang-gun People's Committee: Under construction, Subject observed the completion of the first floor [] and the construction in progress on the second floor, being built as a two (2)-story structure, with a tile roof and red brick walls, 30 meters long, ten (10) meters wide, and five (5) meters high. 25X1
- 18) P'yonggang Primary School: Temporary quarters; Newly built after War; One (1)-story; Grass roof and mud walls; 30 meters long, six (6) meters wide, and three (3) meters high; Playground, 100 meters square; Staff includes 15 teachers, including principal, with student body of 400-500 children.
- 19) P'yonggang Motion Picture Theater: Newly built by Chinese soldiers [] Two (2)-story; Grass roof; 25 meters long, ten (10) meters wide, and ten (10) meters high; Accommodates 500 to 600 people; Outer walls being coated with red brick. 25X1
- 20) P'yonggang Ist Hospital: Four (4) separate, one (1)-story buildings, with grass roofs and lime-coated walls, newly built over ruins of former civilian residences destroyed during War. The largest of the four (4) is the clinic which is 15 meters long, five (5) meters wide, and three (3) meters high, including departments for internal medicine, surgery, and a dispensary. The other buildings are wards for patients, one (1) for men, one (1) for women, also used as a maternity hospital, and the other for patients suffering from serious illnesses and/or infectious diseases. The hospital staff includes the director, a surgeon, an intern, seven (7) nurses, a druggist, an accountant, and four (4) laborers. (NOTE: Subject was interned at this hospital in the men's ward for a period and he noted that the ward had only three (3) beds.) 25X1
- 21) P'yonggang-gun Consumers' Guild Committee: One (1)-story structure, with tile roof and brick walls (dimensions unknown), under construction [] though near completion. (Tile had not yet been placed on roof.) The present quarters of the committee are located directly behind the new building in a one (1)-story structure with a grass roof and mud walls, 20 meters long, four (4) meters wide, and three (3) meters high. This committee manages all consumers' guilds in P'yonggang-gun through its chairman, vice-chairman, purchasing department, and labor director.

CONFIDENTIAL

CONFIDENTIAL

- 22) People's Armed Forces Police Box: One (1)-story structure, with grass roof and lime-coated walls, temporarily built over ruins, 15 meters long, four (4) meters wide, and three (3) meters high, surrounded by board fence. During the day, this box handles traffic control in the area, checking all military personnel passing by, and at night the box personnel search for military personnel staying at private lodging houses in the area. [redacted] approximately 20 personnel on duty at the box at one (1) time [redacted] officer in charge had the rank of one (1) star, and had been conferred the Hero's Title during the Korean War. 25X1
- 23) Residence, Laborers & Clerks, P'yongyang-gun Purchasing & Food Administration Station: A long row (unknown number) of houses in a line and of similar construction, each one (1)-story, with a tile roof and lime-coated walls, newly built, and seven (7) meters long, three (3) meters wide, and 2.5 meters high, accommodating one (1) family.
- 24) Office, P'yongyang-gun Purchasing & Food Administration Station: One (1)-story structure, with tile roof and lime-coated walls, newly built after war, and 15 meters long, ten (10) meters wide, and three (3) meters high. 25X1
- 25) Sentry Box, People's Armed Forces: One (1)-story structure with grass roof and mud walls, temporarily built, and ten (10) meters long, two (2) meters wide, and 2.5 meters high. [redacted] approximately three (3) soldiers, armed, at this box.
- 26) P'yongyang-gun Irrigation Management Station: One (1)-story structure, with tile roof and lime-coated walls, newly built after Korean War, ten (10) meters long, four (4) meters wide, and three (3) meters high. This station gives guidance on the business of irrigation to each village in the county where an irrigation official from the station is located to supervise the timely supply of water to the paddy fields and to maintain the proper repair of embankments. 25X1
- 27) Army Supply Warehouse, Chinese Forces: One (1)-story structure, with tile roof and lime-coated walls, built after war, and 20 meters long, ten (10) meters wide, and four (4) meters high. [redacted] two (2) Chinese soldiers on sentry duty at the warehouse. This fact was learned from CHIN Ch'ang-kun (NTA), a fellow in-patient at the P'yongyang 1st Hospital. [redacted] 25X1
- 28) P'yongyang-gun Communications Department: One (1)-story structure, with grass roof and mud walls, temporarily built over ruins, ten (10) meters long, five (5) meters wide, and three (3) meters high.
- 29) Compound, P'yongyang-gun Purchasing & Food Administration Station: This is an open storage area for the keeping of straw bags, rags,

CONFIDENTIAL

4

CONFIDENTIAL

- 30) Warehouse, P'yonggang-gun Purchasing & Food Administration Station: Barracks-type buildings of an unknown number, all of similar construction and size (15 meters long, seven (7) meters wide, and four (4) meters high) for the storage of rags, scrap iron, straw bags, straw rope, cocoons, and grains collected as tax-in-kind throughout P'yonggang-gun. The area is surrounded by a barbed-wire fence on the side adjoining the railroad and guarded by watchmen-laborers armed with rifles and accompanied by police dogs.
- 31) Fertilizer Warehouse, P'yonggang-gun Purchasing & Food Administration Station: One (1)-story structure, with grass roof and brick walls, newly built after War, 20 meters long, five (5) meters wide, and four (4) meters high, and stocked with Soviet ammonium-nitrate and Ammonium-sulphate fertilizer from the Hwangnam Fertilizer Factory, both in the warehouse and in the adjoining area.
- 32) Station Plaza: An open area approximately 100 meters square, laid over the ruins of former civilian houses, immediately after the War. Area is used mainly for public meetings and celebrations such as held on national holidays.
- 33) Liberation Tower: Newly-built after liberation, remaining in tact during Korean War, the words "Haebang-t'ap" are engraved on the tower.
- 34) Pokkye Railroad Station: One (1)-story structure with grass roof and mud walls, temporarily built over ruins of former station, and ten (10) meters long, six (6) meters wide, and 3.5 meters high. This is the terminal for civilian passengers on the south-bound trains.
- 35) P'yonggang-gun Food Distribution Station: One (1)-story structure with tile roof and brick walls, newly built [] and ten (10) meters long, five (5) meters wide, and four (4) meters high, handling the distribution of foods to the families of workshop employees in the P'yonggang-gun area. 25X1
- 36) P'yonggang-gun Farm Cooperative Management Committee: One (1)-story structure with tile roof and lime-coated walls, newly built over ruins, and ten (10) meters long and wide, and seven (7) meters high. The committee is run by the P'yonggang-gun Consumers' Guild. The building handles such commodities as dry goods, clothing material, foodgoods, and kitchenware and is open to all civilian shoppers. The signboard over this establishment reads as noted above, however, it is believed that the installations is nonetheless a Consumers' Guild Store and actually has nothing to do with farm cooperative management. It is likely that the building had once housed such a management committee, however.
- 37) P'yonggang Restaurant: One (1)-story structure, with grass roof and lime-coated walls, newly built [] as a popular eating place, and 25X1

CONFIDENTIAL

CONFIDENTIAL

run by the P'yonggang-gun Consumers' Guild. The building is 20 meters long, ten (10) meters wide, and seven (7) meters high and serves such dishes as steamed bread, rice soup, lunches, fried eggs, and side-dishes including wine (Soju), etc.

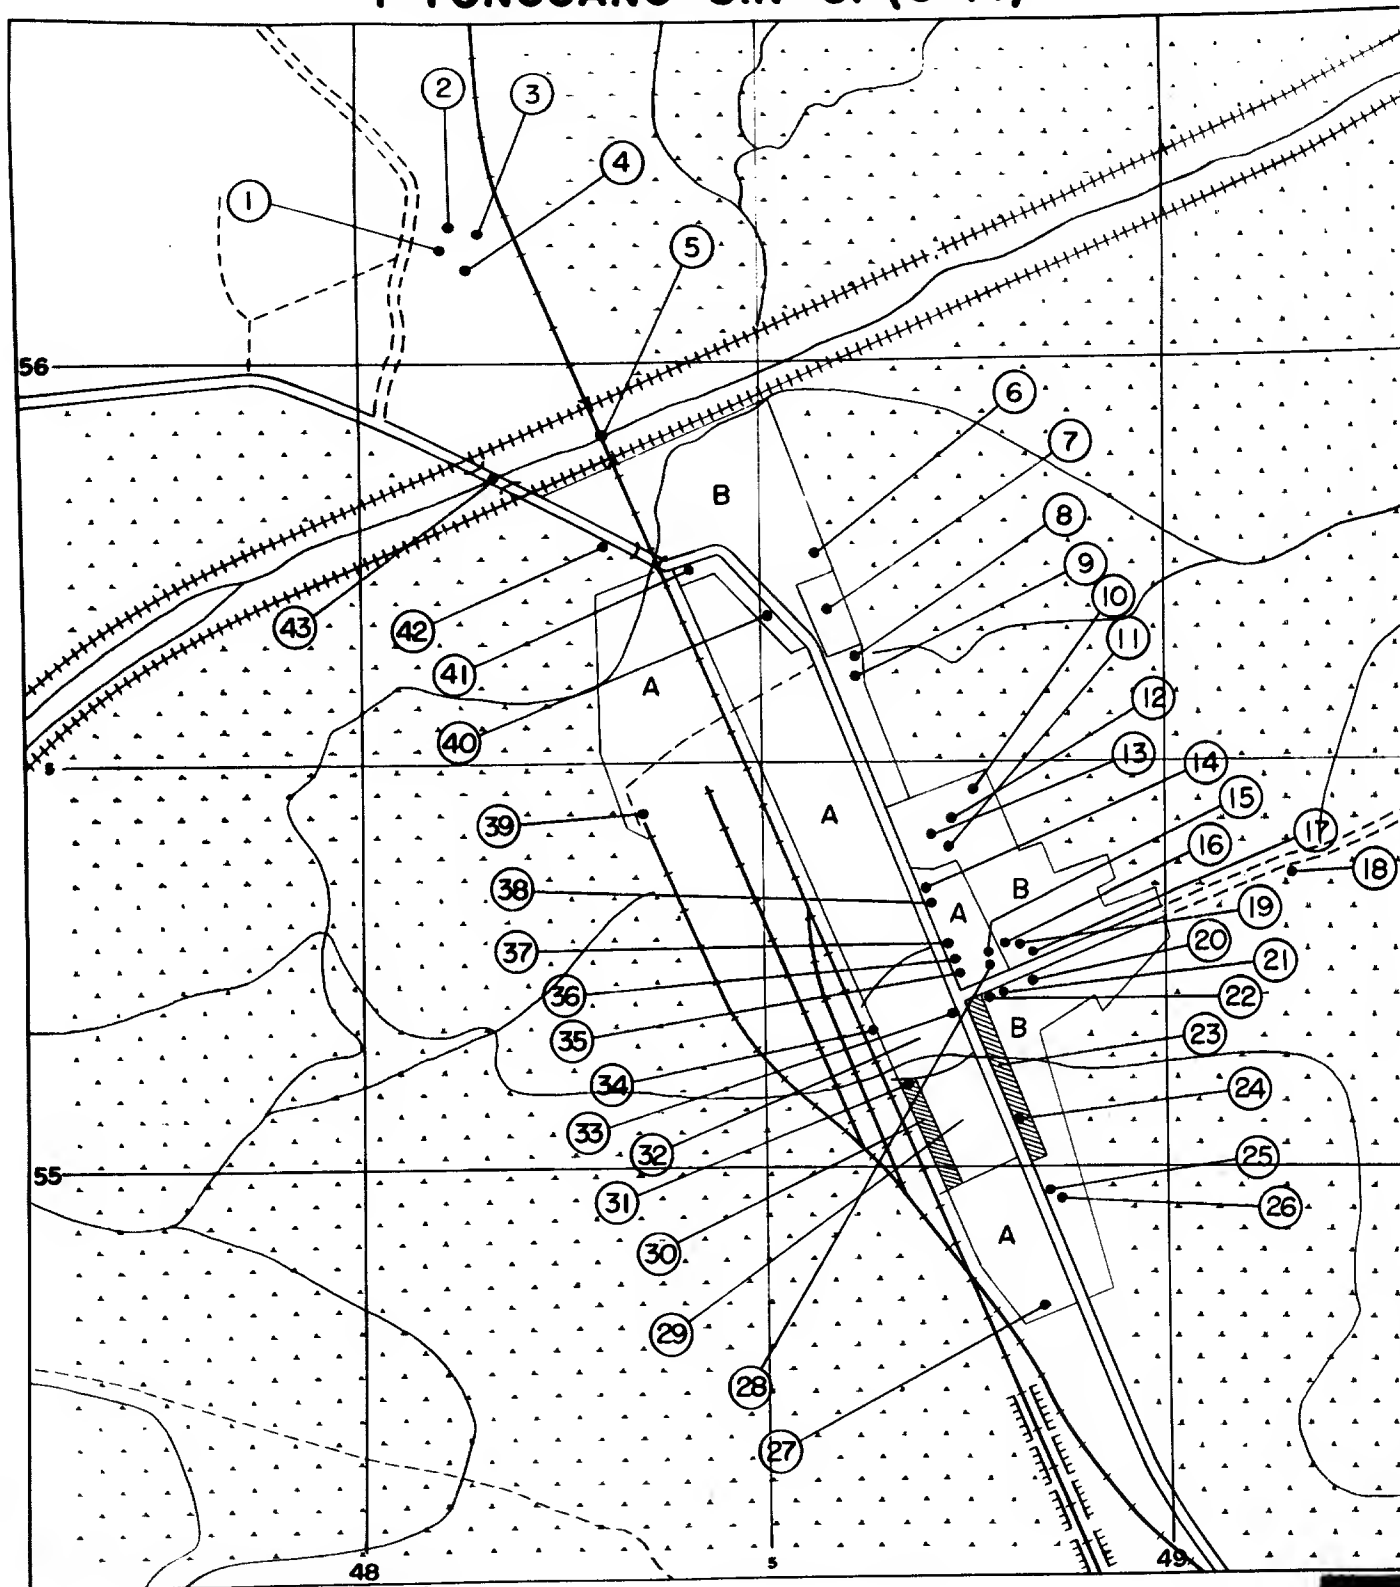

- 38) P'yonggang Bookstore: One (1)-story structure with grass roof and mud walls, temporarily built [] ten(10) meters long, six (6) meters wide, and three (3) meters high. Stores sells books on politics, science, novels, and others on farm economy. 25X1
- 39) Ruins of Pokkye-ri Locomotive Shed: Totally destroyed during Korean War, leaving only the water tower standing. The area is generally occupied by Chinese troops.
- 40) P'yonggang-gun Medical Supplies Administration Station: One (1)-story structure with grass roof and cement walls, newly built over ruins, and 12 meters long, five (5) meters wide, and three (3) meters high. The station is commonly referred to as the "People's Medicine Room" and sells general medical remedies to the public.
- 41) Residence, Pokkyo-Railroad Station: Six (6), one (1)-story structure with tile roofs and brick walls, newly built [] each ten (10) meters long, 3.5 meters wide, and four (4) meters high, accommodating two (2) families each. 25X1
- 42) Power Distribution Department: One (1)-story structure with tile roof and brick walls, newly built [] 20 meters long, five (5) meters wide, and four (4) meters high. 25X1
- 43) Footbridge: Wooden structure, newly repaired, approximately 100 meters long and five (5) meters wide.

2. The areas on the attachment indicated by the letter (A) are those where Chinese troops are concentrated, while the (B) areas are civilian residences. The P'yonggang High School (not shown on the attachment) is located at CT 50255580 in Paegyong-ni, and is a two (2)-story structure with a stone roof and brick walls, which was rebuilt [] over the ruins of the former school, destroyed during the Korean War. The building is about 30 meters long, ten (10) meters wide, and eight (8) meters high and has a staff of seven (7) teachers, including the principal, and a student body of 500 to 600 children in both the middle and high school grades. There is also the P'yonggang Branch of the Central Bank located in P'yonggangsin-po [] 25X1

REPORT #2

I. Details

P'yonggang-sim/p Town Plan:

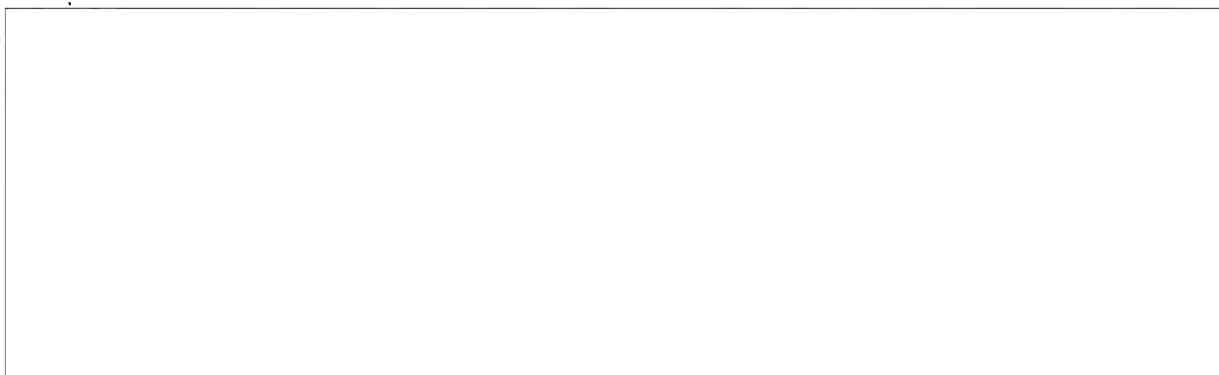

25X1

1. P'yonggang-~~amni~~ (P'yonggang-gun, Kangwon-do) consists of the two (2) areas of P'yonggang-sim/p (Pre-RO: Pokkye) and P'yonggang-gu/p. P'yonggang-gu/p is dominated by Chinese infantry and artillery troops, plus approximately 50 civilian residences, impressing people as a military concentration point. The P'yonggang-gun government as well as the P'yonggang-~~amni~~ authorities are located in P'yonggang-sim/p.

25X1

2. The town reconstruction work has been carried out by 40 percent. According to hearsay, this Sim/p (formerly Pokkye) is the second largest residential area in population throughout Kangwon-do. The first largest area is Wonsan-si, where the Kangwon-do Government is situated. Unlike other local towns, including Sinch'on, Wilyul, and Anak, the internal affairs control in P'yonggang-sim/p is loose and lax, resulting in a concentration point of the unemployed, ex-convicts, burglars, and illegal commodity dealers. People seldom undergo police check out on the streets. This loose discipline is probably due to the fear that any excessively strict control of people might cause desertion of residents to South Korea not far from the town. This area is always busy with heavy traffic of military vehicles and miscellaneous people. Chinese military trains carrying Chinese military personnel and commodities leave and reach this area daily, directly crossing the Chinese-North Korean border. The Chinese-bound military trains each leave the Pokkye Railroad Station (named after the Pre-RO designation) once a day at about 2400 hours, and the North Korean-bound trains each reach the station once a day at about 0300 hours. In general, each military special train consists of six (6) coaches, including one (1) dining-car. The town forms the center of traffic with roads leading to Wonsan, Kyomhwa, Ch'orwon, and Ich'on.

3.

25X1

4. The following are explanations to the attached sketch (P'yonggang-sim/p Town Plan):

CONFIDENTIAL

-1-

CONFIDENTIAL

- 1) P'yongyang-gun Power Transmission & Distribution Department of a red-tile roof structure with brick walls, approximately ten (10) meters long, seven (7) meters wide, and 3.5 meters high, plus one (1) warehouse of a red-tile roof structure with brick walls, which is approximately 20 meters long, ten (10) meters wide, and four (4) meters high. Both Chinese and North Korean military units in P'yongyang-gun are all lighted by this department.
- 2) Residential area consisting of approximately 300 houses of laborers and clerks of miscellaneous institutes, plus a small number of houses of merchants and farmers. This area was seemingly and partly saved from War damage.
- 3) P'yongyang-Muni Farm Cooperative No. 2, using a total of four (4), one (1)-story houses, including one (1) office three (3) warehouses. The office building is a straw-roof structure with dirt walls (plastered with lime), and is approximately 15 meters long, seven (7) meters wide, and 3.5 meters high. The two (2) warehouses are straw-roofed and dirt walled (plastered with lime), and are each approximately 20 meters long, ten (10) meters wide, and four (4) meters high. This cooperative was organized in the autumn [redacted]
- 4) P'yongyang-Mp Sub-Station (of the P'yongyang-gun Internal Affairs Station) of a straw-roof structure with dirt walls (plastered with lime), approximately 15 meters long, seven (7) meters wide, and 3.5 meters high. No further information is available concerning this sub-station.
- 5) Residential area (rebuilt and expanded after the armistice) of approximately 30 houses of laborers and farmers, plus a small number of merchants.
- 6) Private barbershop of a straw-roof structure with dirt walls (plastered with lime) approximately ten (10) meters long, five (5) meters wide, and 3.5 meters high. This barbershop has one (1) worker, and charges 30 Wŏn per capita (adult).
- 7) Highway bridge (concrete structure), approximately 12 meters wide, 100 meters long, and six (6) meters from the water. This bridge was saved from total damage during the War, and is currently used by people, carts, and miscellaneous vehicles.
- 8) Residential area of approximately 50, one (1)-story houses, dominated by merchants, plus a number of farmers.
- 9) Residential area (newly developed after the armistice) of approximately 70 houses. A majority number of these one (1)-story houses are each occupied by more than one (1) households. Miscellaneous people, including laborers and government staffs, are living in this area.

25X1

CONFIDENTIAL

-2-

CONFIDENTIAL

- 10) Highway Bridge (concrete structure), approximately 12 meters wide, 60 meters long, and three (3) meters from the water, with a total of four (4) concrete supporters.
- 11) Guard box (Chinese Quartermaster Unit) of an oil-paper roof structure with board walls, approximately one (1) meter long, one (1) meter wide, and two (2) meters high. This box is manned by one (1) armed Chinese personnel for 24 hours daily. At the box, the guard checks Chinese military vehicles, and keeps civilians from approaching the military compound surrounded with barbed wire fence.
- 12) Two (2)-meter wide and one (1)-meter deep irrigation channel (developed after the armistice), whose dirt-banks are approximately 50 centimeters high and are covered with grasses. This waterway is designed to water the Pokkye plain, and its total length is unknown.
- 13) Open lot storing piles of building materials and fuel, including timber, bamboo, and coal, all belonging to a Chinese Quartermaster Unit. A number of indigenous women were found stealing coal out of this storage area.
- 14) One (1) storage building (of a Chinese Transportation Unit) of an oil-paper roof structure with wooden supporters (no walls), approximately 25 meters long, ten (10) meters wide, and four (4) meters high, warehousing a number of vehicle tires and drums of gasoline. Ex-convicts and jobless people were found stealing tires out of this warehouse.
- 15) Residential area (newly developed after the armistice), consisting of approximately 35 houses occupied by laborers and clerks. Among these one (1)-story houses are those red-tile roofed and brick walled ones, which are each occupied by two (2) households, and are each approximately 20 meters long, ten (10) meters wide, and 3.5 meters high. Further construction is underway in this area.
- 16) Train crews' dormitory of a red-tile roof structure with brick walls, approximately 20 meters long, ten (10) meters wide, and 3.5 meters high. Train crews to and from Wonsan lodge in this house.
- 17) Mess hall and one (1) kitchen (of a Chinese Transportation Unit) housed in one (1) building of an oil-paper roof structure with dirt walls (plastered with lime), which is approximately 20 meters long, ten (10) meters wide, and four (4) meters high.
- 18) P'yonggang-gun People's Drug Store of a red-tile roof structure with dirt walls (plastered with lime), approximately 15 meters long, ten (10) meters wide, and 3.5 meters high, selling at national prices miscellaneous drugs and medical instruments. This drug store, which was built sometime after the armistice, is manned by a couple, and among the scarce items is penicillin.

25X1

CONFIDENTIAL

-4-

CONFIDENTIAL

- 19) Vehicle repair shop (Chinese Transportation Unit) of an oil-paper roof structure with board walls, approximately 20 meters long, ten (10) meters wide, and four (4) meters high. Approximately 20 ZIS trucks of the transportation unit are maintained at this shop.
- 20) Chinese Transportation Unit (designation unknown) office of an oil-paper roof structure with dirt walls (plastered with lime), approximately 15 meters long, seven (7) meters wide, and 3.5 meters high. Close by this office building, there are two (2) oil-paper roofed and dirt-walled (plastered with lime) billets, which are each approximately 20 meters long, seven (7) meters wide, and 3.5 meters high. This Chinese unit is engaged in forwarding military food goods and clothes to the front areas. The unit trucks loaded with military goods leave daily at about 0600 hours and come back to the unit at about 1700 hours on the same day.
- 21) Watch Tower (Chinese Transportation Unit) of a wooden structure, approximately six (6) meters high. The guard box atop the tower is oil-paper roofed and board-walled, and is manned by one (1) armed Chinese personnel for 24 hours daily.
- 22) Guard box (Chinese Quartermaster Unit) of an oil-paper roof structure with board walls, approximately one (1) meter long, one (1) meter wide, and two (2) meters high. This box is manned by one (1) armed Chinese personnel for 24 hours daily.
- 23) Guard box (Chinese Quartermaster Unit) of an oil-paper roof structure with board walls, approximately one (1) meter square and two (2) meters high, and is manned by one (1) armed Chinese personnel for 24 hours daily.
- 24) Guard box (Chinese Infantry Unit) of an oil-paper roof structure with board walls, approximately one (1) meter long, one (1) meters wide, and two (2) meters high. This box is manned by one (1) armed Chinese soldier for 24 hours daily. The name unknown Chinese Infantry Unit consists of approximately 700 personnel.
- 25) Guard box (Chinese Infantry Unit) of an oil-paper roof structure with board walls, approximately one (1) meter long, one (1) meter wide, and two (2) meters high. This box is manned by one (1) armed Chinese personnel for 24 hours daily.
- 26) Kitchen (Chinese Infantry Unit) of an oil-paper roof structure with dirt walls (plastered with lime), approximately 30 meters long, ten (10) meters wide, and four (4) meters high.
- 27) One (1) billet (Chinese Infantry Unit) of an oil-paper roof structure with dirt walls (plastered with lime), approximately 30 meters long, seven (7) meters wide, and 3.5 meters high.

25X1

CONFIDENTIAL

-4-

CONFIDENTIAL

- 28) Locomotive House (of the Pokkye Railroad Station) remaining unrecovered from War damage (no roofing), which is approximately 50 meters long, 30 meters wide, and seven (7) meters high. In this damaged house, locomotives are repaired and marshaled, and are supplied with water and coal.
- 29) One (1) billet (Chinese Infantry Unit) of an oil-paper roof structure with dirt walls (plastered with lime), approximately 30 meters long, seven (7) meters wide, and 3.5 meters high.
- 30) One (1) billet (Chinese Infantry Unit) of an oil-paper roof structure with dirt walls (plastered with lime), approximately 30 meters long, seven (7) meters wide, and 3.5 meters high.
- 31) One (1) billet (Chinese Infantry Unit) of an oil-paper roof structure with dirt walls (plastered with lime), approximately 30 meters long, seven (7) meters wide, and 3.5 meters high.
- 32) Main gate guard-box (Chinese Infantry Unit) of a board roof structure with board walls, approximately one (1) meter long, one (1) meter wide, and two (2) meters high. This box is manned by one (1) armed Chinese guard for 24 hours daily.
- 33) One (1) billet (Chinese Infantry Unit) of an oil-paper roof structure with dirt walls (plastered with lime), approximately 30 meters long, seven (7) meters wide, and 3.5 meters high.
- 34) One (1) billet (Chinese Infantry Unit) of an oil-paper roof structure with dirt walls (plastered with lime), approximately 30 meters long, seven (7) meters wide, and 3.5 meters high.
- 35) Guard box (Chinese Quartermaster Unit) of a board roof structure with board walls, approximately one (1) meter long, one (1) meter wide, and two (2) meters high. This box is manned by one (1) armed Chinese guard for 24 hours daily.
- 36) Guard box (Chinese Infantry Unit) of a board roof structure with board walls, approximately one (1) meter long, one (1) meter wide, and two (2) meters high. This guard box is manned by one (1) armed Chinese soldier for 24 hours daily.
- 37) Warehouse (Chinese Quartermaster Unit) of an oil-paper roof structure with dirt walls (plastered with lime), approximately 50 meters long, ten (10) meters wide, and four (4) meters high. This house is seemingly warehousing flour and rice.
- 38) One (1) office building (Chinese Infantry Unit) of an oil-paper roof structure with dirt walls (plastered with lime), approximately 30 meters long, seven (7) meters wide, and 3.5 meters high.
- 39) One (1) office building (Chinese Infantry Unit) of an oil-paper roof structure with dirt walls (plastered with lime), approximately 30

- 50) Warehouse (Chinese Quartermaster Unit) of an oil-paper roof structure with dirt walls, approximately 50 meters long, ten (10) meters wide, and four (4) meters high. This house is seemingly warehousing military clothes.
- 51) Residence (occupied by an officer of the Chinese Infantry Unit) of an oil-paper roof structure with dirt walls (plastered with lime), approximately 20 meters long, seven (7) meters wide, and 3.5 meters high. In this house, the Chinese officer lives with his dependents, including his wife.
- 52) Guard box (Chinese Quartermaster Unit) of a board roof structure with board walls, approximately one (1) meter long, one (1) meter wide, and two (2) meters high. This box is manned by one (1) armed Chinese personnel for 24 hours daily.
- 53) Pokkye Railroad Station of a cement-tile roof structure with dirt walls (partly plastered with lime and partly covered with board), approximately 20 meters long, 15 meters wide, and four (4) meters high. This station is manned by a total of six (6) Korean personnel, including the station master (1st Lieutenant) wearing two (2) small stars, plus a team of three (3) Chinese nationals (their identity is unknown) who are assigned to deal with Chinese soldier-passengers. The Chinese train passengers alike obtain their train tickets at this station. The Pokkye Railroad Station is the terminal for southbound civilian passengers.
- 54) Residence (occupied by two (2) interpreters, one 2nd Lieutenant and the other 1st Lieutenant, and their dependents of the Chinese Infantry Unit) of an oil-paper roof structure with dirt walls (plastered with lime), approximately 20 meters long, seven (7) meters wide, and 3.5 meters high. NOTE: [redacted] the Chinese soldiers in North Korea started wearing their Chinese insignia of rank. 25X1
- 55) P'yonggang-gun Liberation Tower (established in memory of 15 August 1945) of a partly concrete and partly stone structure, approximately five (5) meters high, with the bottom stand occupying a lot of approximately three (3) meters in diameter. This tower was erected sometime after the armistice.
- 56) Freight Storage House (of the Pokkye Railroad Station) of a zinc roof structure with dirt walls (plastered with lime), approximately 30 meters long, ten (10) meters wide, and four (4) meters high; plus the Freight Dealing Station (of the Pokkye Railroad Station) of a red-tile roof structure with dirt walls (plastered with lime), approximately 15 meters long, ten (10) meters wide, and 3.5 meters high.
- 57) Pokkye Railroad Station Yard, approximately 100 meters long by 50 meters, where field motion pictures and plays are shown occasionally for both Chinese soldiers and Korean People's Armed Forces personnel.

CONFIDENTIAL

CONFIDENTIAL

Northbound and southbound moving troops take breakes at this station yard.

- 58) P'yŏnggang-gun Purchasing Station of a cement-tile roof structure with dirt walls (plastered with lime), approximately 15 meters long, seven (7) meters wide, and 3.5 meters high; plus two (2), straw-roofed and dirt-walled (plastered with lime) warehouses, which are each approximately 30 meters long, ten (10) meters wide, and four (4) meters high. This station is engaged in purchasing miscellaneous straw goods from farmers, plus cocoon collected from Ch'ŏrwŏn, Ich'ŏn, Kyŏnhwa, and P'yŏnggang.
- 59) Open piles of timber to be used for the People's Armed Forces troops in P'yŏnggang-gun, occupying an area of approximately 50 meters long by 20 meters.
- 60) Used in piling packed fruit, food goods, and cement, to be spent for Chinese troops. This open lot is approximately 70 meters long by 70 meters, which is surrounded with lighted (at night) barbed wire fence.
- 61) Watch house (of the P'yŏnggang-gun National Lumber Mill) of a board roof structure with board walls, approximately 15 meters long, seven (7) meters wide, and three (3) meters high.
- 62) Open timber storage area (of the P'yŏnggang-gun National Lumber Mill), approximately 200 meters long by 30 meters. Logs are piled high in this area.
- 63) Grain storage area (this is publicly known as the P'yŏnggang-gun Tax-In-Kind Warehouse), approximately 150 meters square, plus one (1) office of a red-tile roof structure with brick walls, which is approximately 15 meters long, five (5) meters wide, and 3.5 meters high. The office issues "receipt" to farmers for their payment of tax-grain, and its personnel watch the piles of grain, totalling six (6), which are each approximately 20 meters long, 15 meters wide, and seven (7) meters high.
- 64) Chinese military lumber mill, consisting of three (3) buildings, including the oil-paper roofed and board walled office, which is approximately 15 meters long, five (5) meters wide, and 3.5 meters high; one (1) mill house of a board roof structure (no walls), approximately 30 meters long, 20 meters wide, and four (4) meters high; and one (1) oil-paper roofed and board walled billet, approximately 30 meters long, seven (7) meters wide, and 3.5 meters high. This mill is provided with one (1) sawing machine, and seemingly supplies boards to Chinese troops in P'yŏnggang-gun.
- 65) Residential area dominated by farmers.

- 66) P'yŏnggang-gun National Farm office, consisting of two (2), red-tile roofed and brick walled office buildings, which are each approximately 15 meters long, five (5) meters wide, and 3.5 meters high. [redacted] this farm office controls these fields and paddies neighboring the Military Demarcation Line. 25X1
- 67) Residential area (newly developed after the armistice), consisting of approximately 200 houses in all, and is dominated by laborers of the P'yŏnggang-gun National Farm, plus an exclusive number of farmers and clerical workers.
- 68) P'yŏnggang-gun Military Police Department (of the People's Armed Forces), using a total of four (4) buildings, including the main office building of a red-tile roof structure with dirt walls (plastered with lime); two (2), red-tile roofed and dirt walled (plastered with lime) billets; and one (1) mess hall of a red-tile roof structure with dirt walls (plastered with lime). The office is approximately 15 meters long, seven (7) meters wide, and 3.5 meters high, and the billets are each approximately 30 meters long, seven (7) meters wide, and 3.5 meters high. The mess hall is approximately 30 meters long, ten (10) meters wide, and four (4) meters high. Close by the main office building, there is the guard box of a board roof structure with board walls, which is approximately one (1) meter long, one (1) meter wide, and two (2) meters high, and is manned by one (1) policeman (armed with Ppsh sub-machine gun) for 24 hours daily. This military police department has a total of 100 personnel. They, in a team of two (2) each, check mostly soldiers and occasionally civilians at the station, out on the streets, and at lodging houses. Those People's Armed Forces personnel trying to spend nights in P'yŏnggang-sim/p are required to report of their lodging at this department, and through the good offices of the department personnel, they secure lodging quarters. The department also issues "travel certificate" to those military dependents trying to travel to the front areas to see their soldiers.
- 69) One (1) People's Armed Forces billet of a cement-tile roof structure with dirt walls (plastered with lime) and one (1) mess hall of a cement-tile roof structure with dirt walls (plastered with lime). The billet is approximately 15 meters long, five (5) meters wide, and 3.5 meters high, housing a total of approximately ten (10) soldiers assigned to guard the open timber sotrage area (see Item 59). The mess hall is approximately 20 meters long, ten (10) meters wide, and four (4) meters high.
- 70) P'yŏnggang-gun Food Goods Distribution Station of a red-tile roof structure with brick walls, approximately ten (10) meters long, five (5) meters wide, and 3.5 meters high. This station has one (1) red-tile roofed and brick walled warehouse, which is approximately 20 meters long, seven (7) meters wide, and four (5) meters high. It distributes grains, soy sauce, soybeans, and bean oil. The buildings were built after the armistice.

CONFIDENTIAL

of this house is used by in-patients); and one (1) slate-roofed and brick walled building housing both the storage and bathing quarters, which is approximately 15 meters long, seven (7) meters wide, and 3.5 meters high. The main office building is approximately 20 meters long, ten (10) meters wide, and four (4) meters high, and the "in-patients' house" consisting of five (5) in-patients' rooms is approximately 30 meters long, seven (7) meters wide, and four (5) meters high. The operation house is approximately 15 meters long, ten (10) meters wide, and four (4) meters high. Besides these buildings, there are one (1) latrine of a red-tile roof structure with board walls, which is approximately seven (7) meters long, two (2) meters wide, and 2.5 meters high; and two (2) residences, one occupied by the hospital director and the other used by the woman doctor. The doctor's house is cement-tile roofed and dirt-walled (plastered with lime), and is approximately 15 meters long, seven (7) meters wide, and 3.5 meters high. The residence for the woman doctor is a straw-roof structure with dirt walls (plastered with lime), which is approximately ten (10) meters long, five (5) meters wide, and 3.5 meters high. Subject was hospitalized at this hospital for a period of approximately 20 days.

- 79) P'yonggang-gun National Lumber Mill consisting of two (2) buildings, including the red-tile roofed and brick walled office, which is approximately 15 meters long, seven (7) meters wide, and 3.5 meters high; and the mill house of a red-tile roof structure (no walls), approximately 20 meters long, ten (10) meters wide, and four (4) meters high. The mill is provided with two (2) sawing machines.
- 80) Residential area (expanded after the armistice) of approximately 50 houses dominated by clerical workers.
- 81) Chinese troops occupying an area of approximately 1,000 meters square and using approximately 20 buildings. This area comes under Paengnyong-ni (P'yonggang-gun).
- 82) Chinese troops using a total of approximately 20 buildings in an area of approximately 1,000 meters square. This area is in Paengnyong-ni.
- 83) Residential area (recovered and expanded after the armistice) of approximately 15 farm houses dominated by farmers, plus a small number of merchants.
- 84) P'yonggang-gun Senior Middle School consisting of two (2), red-tile roofed and dirt walled (plastered with lime) buildings (built after the armistice). Of these buildings, one is approximately 40 meters long, ten (10) meters wide, and four (4) meters high, and the other is approximately 30 meters long, ten (10) meters wide, and four (4) meters high. This senior middle school also houses the junior course.
